- **English:** Intermediate (Comprehension Advanced Technique)

ABOUT ME

My journey began with studies in Information Systems Engineering, until I discovered my passion for web development. I specialize in full-stack development, creating functional, scalable, and well-structured applications. I am committed to continuous learning and enjoy solving real-world problems as part of a team.

WORK EXPERIENCE

Crystal Code

Developer and co-founder — Present

- Creation of the company together with a team of developers to offer comprehensive services: websites, mobile applications and management systems adapted to each business.
- Active participation in technical development, architecture definition, and client relations.

TyM Asociados

Developer — 2024 – 2025

- I was part of the development team of Necesito Esto!, a platform that connects companies with suppliers and facilitates the management of external operations.
- I contributed to the backend development using PHP and MySQL under the MVC pattern, ensuring stability and scalability.

Freelancer

Web Developer — 2023 – 2024

- Development of custom websites for different clients, adapted to their needs and sectors.
- Implementation of responsive designs and dynamic functionalities using JavaScript and React.
